PROFESSIONAL SUMMARY

Motivated and self-driven aspiring Cyber Security and Data Science professional with hands-on experience in data analytics, machine learning, and web development. Completed multiple internships involving real-world data analysis, dashboard development, and predictive modeling. Founder of SecuByte Labs, building demo and business websites for various industries.

SKILLS

Programming: Python, JavaScript, HTML5, CSS3

Data Science & Analytics: Pandas, NumPy, Machine Learning, Data Cleaning, Statistical Analysis

Data Visualization: Power BI, Excel Dashboards

Web Development: Bootstrap, jQuery, Django

Tools: GitHub, Google Colab, Jupyter Notebook, VS Code

PROFESSIONAL EXPERIENCE

Data Analytics Intern – Intern Intelligence (Remote) | June 2025 – July 2025

- Developed predictive analytics models using Python.
- Built interactive Power BI dashboards for business insights.
- Cleaned and processed datasets for analysis.

Data Science & Analytics Intern – Future Interns (Remote) | April 2025 – May 2025

- Performed social media trend analysis using NLP.
- Analyzed customer support ticket datasets.
- Built Power BI dashboards for accident data insights.

PROJECTS

Phone Number Information Extractor (PNIX) – OSINT-based tool extracting phone metadata using Python APIs.

Social Media Trend Analysis – NLP-based social data scraping and Power BI dashboard.

Road Accident Data Dashboard – Interactive Power BI analytics for accident trends.

EDUCATION

Bachelor of Computer Applications (BCA) – Expected Graduation 2029

Senior Secondary (Class 12) – Result Pending (2026)

Secondary School (Class 10) – 80.83% (2024)

CERTIFICATIONS

Data Science & Analytics Internship Certificate – Future Interns
Data Analytics Internship Certificate – Intern Intelligence
Letter of Recommendation – Future Interns

ADDITIONAL INFORMATION

Founder – SecuByte Labs: Built demo websites for businesses to showcase digital solutions.
Interests: Cyber Security, Data Science, Artificial Intelligence, Software Development.
